ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 percent with their bids, and it is agreed that remittance will be made

upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE. Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. PLEASE BID BY THE LOT. Unlimited bids are executed at an advance of 5 percent over the next highest bid. Numbers in

() are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. LOTS CANNOT BE BROKEN. Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Sales Are Conducted As Follows:

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. SEND BIDS AIRMAIL — IT PAYS.

- 2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.
- 3. Valuation placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin — instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want it called to our attention to help prevent future errors.

Any coins may be inspected prior to the sale, collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

IS THIS YOUR FIRST AUCTION CATALOG?

23rd EDITION (1970) GUIDE BOOK, PAPER MONEY 6th EDITION "TRENDS"
AND OTHER AUCTION RECORDS USED IN CATALOGING

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOT ETHAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASH-INGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG). In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even the auction purchases are supposed to be final, we do not wan". you to keep any lots which you believe are improperly described. We endeave: to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

Please allow up to two weeks for receipt of coins; unsuccessful bidder will be notified.

YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING SUCCESSIVE CATALOGS WITHOUT INTERRUPTION

BARGAINS

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints (yes we receive some now and then), we want to hear them. Having catalogued over two hundred seventy-five successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 percent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 10c airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

1794 SILVER DOLLAR

The first year of our largest silver coin and the unit on which our system of coinage is based. While the decimal system originated in France, we were the first country to use it for its coinage. While discussions on an independent coinage took place during and after the Revolutionary War, the mint wasn't completed until 1792. Copper coins were struck in 1793, and the silver coins weren't struck until late in 1794. The main coin was the dollar or unit. In fact the edge lettering reads "HUNDRED CENTS ONE DOLLAR OR UNIT". All other coins are based on this "unit" or "dollar" which duplicated the Mexican 8 reales in size and content (the most common coin circulating in the colonies at the time). Our paper money of the period recognized this by stating their value in "Spanish" Milled Dollars" (Spanish-type 8 reales of Mexican or other Spanish-American mints). An important coin historically and numismatically.

1794 Fine, VERY RARE early die state with left stars sharp and lettering of reverse sharp! We doubt if 10% or so of the few surviving specimens come this way. Bolender states in his book. (The U.S. Early Silver Dollars 1794-1803 - printed 1950) "Usually found with the impression weak on lower part of date and stars on left, and sometimes the border milling on left does not show up. The corresponding portion of reverse, will therefore also appear weak. VERY RARE. This is further corroborated by Kosoff in his catalog of the Alex Shuford collection (May 14, 1968) wherein he states (lot 1436) "Only one die used this year. First year of issue. Only a very small number was minted, 1758 pieces, and probably less than 2 dozen survived. There is a characteristic weakness in the striking of the left side. The reverse has an unusual number of adjustment marks. Very Fine 25. Very rare. \$5,500.00" A careful examination of the illustration of that specimen indicates that the left stars are indeed very weak and the left half of the reverse lettering is almost completely illegible and covered with a number of mint-adjustment marks (file marks to bring the coin down to its proper weight). This is a more esthetically appealing specimen with nice striking and even wear, there is a small porous spot in field. RARE IN ANY CONDITION BUT VERY RARE SO WELL STRUCK! The Shuford specimen realized \$4,000.00 a year ago; surely this attractive coin herein offered worth very close to that.

1795 TYPE I SILVER DOLLARS

Flowing Hair Type 1794-95, Medium-Size eagle, Two Major Sub-Types, 2 leaves beneath each wing or 3 leaves.

2.. 1795 B-1, Two leaves, similar type as 1794, virtually Uncirculated with only slightest friction on highest points. An attractive and popular "type" coin.

.... 1,300.00 3.. 1795 B-7, Three leaves, oftentimes called "HEAD OF 1794", also THE ONLY

14 BERRY REVERSE, acquired as "Extra Fine" and it is rather close to it.

1795-96 TYPE II SILVER DOLLARS

Draped Bust, 15 Stars for States, Small Eagle Reverse.
.. 1795 B-14, Similar variety as that pictured in Guidebook with bust centered

RARE. Catalogs low unc. at only ________1,450.00

1797 TYPE III SILVER DOLLAR

Only struck early in year with 9 STARS LEFT & 7 STARS RIGHT, to signify admission of Tennessee as 16th state, Small Eagle Reverse. Type IV is 1797 10X 6 stars; type V is 1798 13 stars small eagle.

750.00

1797 TYPE III SILVER DOLLAR (Cont.)

1797 B-1b, Large Letters reverse, variety with die breaks thru 7th & 2nd stars, breaks from top curls on head to ERTY, slight die bulging at first star on left, die break thru second T of STATES, near Uncirculated. RARE. Bolender lists this variety as somewhat rarer than the normal 1797 B-1. THE LOWEST ISSUE BY FAR FOR ANY YEAR 1795-1803! ______ 1,000.00

1798-1804 TYPE VI SILVER DOLLARS

Obverse 7X6 STARS, Large Heraldic Eagle Reverse. 7 1798 B-9b, Close date, 5 Large berries, ONLY 12 ARROWS, some but not all of the die breaks listed under B-9a. A choice extremely fine specimen with traces of luster. RARE VARIETY. The only 1798 with 12 arrows. Why the Guidebook persists in valuing this "one die only" major variety the same as	
that which has 11 varieties, your guess would be as good as ours.	500.00
8 1799 B-14, Very fine. RARE VARIETY.	300.00
9 1800 B-18a, ONLY 12 ARROWS, "Comet" variety with die breaks thru clouds, die break from 1st to 4th star and 8th to 11th star, virtually Uncirculated, only barest friction. RARE. Well worth	500.00
10 1800 Normal 13 arrows, basically fine but "D.BALL" counterstamped in small	300.00
letters in field. Catalogs fine	150.00
11 1801 B-3, Right foot of "T"s on reverse missing, Prooflike surface, only barest friction. Envelope marked "—Sale (California April, 1961) rubbed	
Proof". RARE VARIETY.	600.00
12 1802 OVER 1, B-3, Wide overdate, very fine obverse but reverse extremely fine. RARE.	300.00
13 1802 B-6, Normal Close Date, variety with right foot of "T" in LIBERTY	200.00
missing, near Uncirculated, edge nick. Catalogs unc.	725.00
14 1803 B-4, Small 3, ONLY 12 ARROWS, a sharp very fine. RARE.	250.00

15 Stars obverse as in 1796 combined with Small Eagle small letters reverse first used in 1796 (again sparingly in 1797 B-2). Probably a partly-finished die of 1796 (without complete date) hurriedly finished and pressed into use for the limited production until the new Heraldic Eagle reverse was ready.

1798 TYPE II SILVER DOLLAR

1798 B-2, 15 Stars obverse, small eagle reverse, near Uncirculated with luster. VERY RARE, PARTICULARLY SO CHOICE! Greatly undervalued in keeping with its true rarity. We believe the "uncirculated" price of \$1,500.00 is theoretical as we do not recall seeing a choice uncirculated

1799 TYPE VII SILVER DOLLARS

15 STARS REVERSE (ERROR DIE) "corrected" by placing clouds over first and last stars but points of stars "peep-out".

1799 OVER 98, very fine with some portions closer to extremely fine. VERY RARE "TYPE" COIN!

350.00

1799 TYPE VIII SILVER DOLLAR

8X5 Stars, similar to gold. Evidently an attempt at conformity of gold and silver types. 17 . . 1799 B-23, Mostly very fine (date, stars, Liberty) obverse, with only the bust itself being fine; very fine reverse. RARE. Catalogs v.f.

SMALL FEDERAL NOTES - GOLD OBLIGATION TYPE II

This is a continuation of the remarkable collection of which the GOLD OBLIGATION TYPE I (numeral in seal) was offered in our last sale. Type II has the letter in seal. As stated there, these are increasing in popularity. WE DO NOT KNOW OF ANY COMPLETE COLLECTION OF THESE "DEPRESSION-BORN" ISSUES, 1928-33. Some are appearing for the first time in all our 285 sales! Careful study of this series indicates many are rare with SOME EXTREMELY RARE. We believe future references will reflect this rather than a theoretical listing primarily based on quantity issued — not on the exact knowledge of the specimens actually known to exist.

659 1837 FEUCHTWANGER Flying Eagle (page 245 Guidebook) UNCIRCULAT- ED golden, some olive. Rare so choice	659		100.00

100.00

1858 OVER 7?, in plastic lettered "1858 OVER 7....7 DIRECTLY UNDER EAGLE". Unlike variety illustrated in Guidebook. This has what appears to be the tip of a "7" in field between the first 8 and the eagle, uncirculated golden olive, Large Letters, and feathers of eagle bluntly struck as characteristic of so many Large Letters. RARE, no matter whether it is an overdate or some other variety.

1858 OVER 7 FLYING EAGLE CENT

Lot 136 of July, 1966 sale described "1853/7 FLYING EAGLE, golden 663 . . UNCIRCULATED. THE RAREST SMALL CENT IN POSSIBLY "THE CHOICEST CONDITION KNOWN". We note a specimen advertised in the April, 1966 Numismatist, page 519 as follows: "Extremely fine, plated on page 83 of Red Book and unpriced. This is the rarest Indian-Flying Eagle type coin. Less than a dozen exist, \$3,650.00". Surely this much superior specimen (acquired as "CHOICEST KNOWN") worth many times that of the 1856 flying eagle of which about 1000 are said to be known. On a comparative scale, \$10,000 would not be out of line; but until the new albums include it, we feel it will bring less, possibly \$5,000 to \$6,000.00." \$4,603.00 was paid for this coin at that sale three years ago. We cannot find a record for a comparable specimen offered since then. The fabulous Miles collection sold at public auction in April this year did not have a specimen even tho it contained the EX-TREMELY RARE 1864-L in Proof which realized \$6,000.00. What this FABULOUS 1858 OVER 7 SPECIMEN will now realize, your guess would be as good as curs. It still remains unpriced in the Guidebook.

746	1869 OVER 8, GOLDEN UNCIRCULATED. EXTREMELY RARE. Why the Guidebook continues to list only the cent overdate of this year when other denominations also exist, your guess would be as good as ours. A quick perusal of the older Guidebooks reveals that several overdates now listed were not then included; perhaps this has not been included since it is so much rarer than the cent.	500.00

"CONDITION CENSUS" 1793 LIBERTY CAP CENT

Lot 42 of 1964 A.N.A. Sale described "1793 - Liberty Cap. S 14. The bisecting die-crack variety. Sheldon states the Miller-Hines example, which is the 2nd finest known is 25. We now say that this one herein listed is finer than the Miller-Hines specimen and is at least 30, with the reverse still a sharper 35. With this now being the 2nd finest known, we think that we have a right to evaluate this one at what may seem a high estimate of \$4,200.00, but possibly after the bidding closes, this estimate may be too conservative.". It did realize \$4,200.00 then, five years ago. Careful examination with a powerful glass reveals some slide marks. Probably now worth over _______5,000.0^

1794 CHOICE, SHARP CENT

Lot 43 of 1964 A.N.A. Sale described "1794 - S 24. Sometimes affection-980 . . ately called the apple-cheek variety, and as it is, the cheeks are abnormally high and rounded. From the Ex-Dr. French and T. James Clarke Collection. Exceptionally sharp. Glossy medium olive toned. Sheldon states the die nearly always seen delicately roughed or a rusted die, as this is. Owner states this probably the sharpest known. For this GEM, we believe it may exceed \$1,200.00.". It realized \$1,250.00 then, five years ago; now probably worth closer to 2,000.00

1796 CHOICE DRAPED BUST CENT

981 . . 1796 S-110, 96 Close and connected, near Uncirculated with lovely blended brownish steel color. Probably The THIRD OR FOURTH FINEST KNOWN!

1797 SHELDON NC-2 CENT

982 . . 1797 S-NC-2, Lot 140 of Edward Schwartz sale (Kosoff, New York, Oct. 1961) described "NC-2, heavy rim break over D ST. In addition to the breaks described by Dr. Sheldon, there is a faint crack from bowknot, through left ribbon, thru left side of U to denticle, Extremely Rare. Rarity 8. The top piece a 20 is in ANS. This may be the 15 listed by Sheldon. Has been valued at \$750.00." As stated, Dr. Sheldon lists the finest in ANS, therefore THIS IS THE CHOICEST OF THE TWO SPECI-MENS HE LISTS IN COLLECTORS HANDS! It realized \$600 in that sale, 8 years ago; surely this great rarity now worth closer to ______ 1,000.00

984 . . 1798 S-167, Large Date, virtually Uncirculated, only barest rubbing, lovely bluish patina, characteristic light struck "of" on reverse. A choice specimen acquired as "Uncirculated" and while we believe it to be "CON-DITION CENSUS" we cannot quite accept it as fully "Uncirculated". Cost \$300 in 1962; probably now worth closer to

400.00

1798 S-174, lot 69 of 1964 A.N.A. sale described "Nearly let black Uncircu-985 . . lated, or virtually so (55 to 60)". This would make it either the SECOND or THIRD FINEST KNOWN! Realized 550 in 1964; probably now worth over

1583 1854 BRILLIANT UNCIRCULATED GEM! A lovely specimen indeed of the first year struck. Considered by many as a "TYPE COIN" due to the word "dollars" being so tiny compared to the large size used 1855-1889. In strong demand.

1603	. 1880 FLOWING HAIR, BRILLIANT PROOF, CHOICE! Struck in aluminum. Only 2 or 3 struck compared to the gold of which 15 are said to have been struck! Cataloged low at only \$3,250.00 in 1965 when the gold cataloged \$12,500.00. The next year the catalog value for the gold was increased to \$14,500.00 in the Guidebook but no new edition of the Judd book (which lists gold and other metals) was issued. Presently, the Guidebook does not attempt to place a value on the gold due to its great rarity - how much truer this would be for the even rarer aluminum specimen. We believe the present value for the aluminum one, particularly so choice, to be closer to	000.00

GENUINE CALIFORNIA FRACTIONAL GOLD

Increasingly active, this series appears headed toward a greater collector interest by

types and varieties. The most reasonable (by far) of the Private & Territorial Gold. Many
have started assembling a set by denominations and shapes; some even further by general types and a number of more serious scholars by varieties. Several new books are in
preparation.

I M P O R T A N T M E S S A G E

For years we have counseled and helped advise those wishing to acquire coins and currency as an investment. We define investors as those willing to adopt a program envisioning a minimum of several years. Suffice to say — that in our thirty-five years as professional numismatists the results have been most gratifying.

We believe the various reference books are excellent guides — But ONLY THAT. We doubt if an intelligent person would attempt to become his own "lawyer" after reading a law book, or give himself medical treatment after reading a medical book.

Why then would an intelligent collector, who devotes himself parttime to numismatics, feel he would be as well equipped to give the best answers in building a numismatic investment as part of his estate, compared to a PROFESSIONAL WHO HAS DEVOTED OVER A THIRD-OF-A-CENTURY TO THE STUDY AND RESEARCH OF NUMISMATICS AS A FULL-TIME PROFESSION.

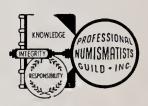

The very nature of this type of PERSONAL COUNSELING (A. M. or Paul Kagin) precludes it becoming a widely offered service. We are prepared, at this time, to continue offering this service to an additional few discriminating collectors as replacements for the normal attrition which has transpired during the past year.

We feel the experience gained in cataloging over 280 sales (a record that speaks for itself) enables us to offer the ultimate in counseling service.

The relationship with our clients is (as has always been our policy) of a fiduciary and confidential nature.
